HC-17 Carrying Case for V17 Monitor

As a viable production field monitor, the V17 has continued to turn heads and provide an affordable, full-size monitoring solution. With the release of the ikan branded Nanuk cases, V17 owners can transport their full field monitor kit with ease and confidence. The high-density foam inserts are custom cut to fit the V17, along with several accessories. The V17 can fit into the case with the following still attached; the Monitor Yoke, the Monitor Kick Stand, the Screen Protector, and a Pro Battery Plate. The SH17 Sunhood can fold up and fit on top and the new case even has cut-outs for two professional battery packs in the bottom of the case. Waterproof, crushproof, dustproof and impact resistant, the Nanuk case for the ikan V17 Monitor is the perfect solution for the location shooter.
