

## INTRODUCTION

Thank You for purchasing our ikan Brifocus 650 CoolTouch. We know you will be satisfied with our tungsten series lights. Please visit [www.ikancorp](http://www.ikancorp) for more information on our future products including our award winning fluorescent studio lights and LCD monitors.

## PACKAGE INCLUDES

- 650 WATT focusing flood light
- Cable strap
- Professional power switch
- 4 door barndoor

## GETTING STARTED

1. Installing the barndoor
  - a. make sure the silver screws on the rim of the light are unfasten.
  - b. Next, slide the barndoor into place and make sure it fits well.
  - c. Last, fasten the silver screws until tighten.

## ADJUSTING THE FOCUS

The orange knob on the Brifocus 650 CoolTouch light may be turned clockwise to flood the light, and counter clockwise to have the light more focused.

Clockwise (flood)	Turning the knob clockwise softens the light.
Counter Clockwise (focus)	Turning the knob counter clockwise will make the light more direct.
